PROFESSIONAL EXPERIENCE **Duckwood Creative Group** | Gainesville, Florida: /00-present

Owner and Creative Director

As founder, President and Creative Director of Duckwood Creative Group, my responsibilities are for the entire design production process, from securing and maintaining client relationships to actively constructing and implementing creative concepts using all my skills as a designer and team leader.

Professional accomplishments and services include:

- Website design, production and layout - designing custom, complex and dynamic web sites for a wide range of companies and organizations. Techniques and skills used to create custom content include: Photoshop for image manipulation, photo retouching, site layout (including grid and CSS), graphic design, slicing and dynamic imagery; Dreamweaver and other HTML layout programs to build, structure, style and maintain unique websites; Illustrator to create custom vector art and logos; Flash for banner ads, multimedia concepts and interactive content; MySQL to build and implement mid-level database implementation and jQuery to embellish and enhance the end user's web experience.
- Graphic design, production and layout - designing original content including logos and brand identities; design business cards, brochures, flyers, catalogs, newsletters, signs, banners and custom business materials.
- Production and pre-press - providing print brokerage services and pre-press expertise to clients needing a variety of print and marketing materials.
- Client acquisition and relations - securing, maintaining and developing new and existing clientele; organize projects and complex customer needs in a fast-paced and team oriented environment.
